## TO WHOM IT MAY CONCERN

Under Council's asset management practices, Sealmetoo Pty Ltd was engaged in 2014-2016, to reline concrete storage reservoirs on the Rankins springs, Melbergen and Goolgowi water schemes.

Council manages and supplies potable water to Hillston, Goolgowi, Merriwagga, Carrathool and raw water to Rankins Springs, Bunda, Black Stump, Goorawin and farm properties for stock and domestic consumption.

Sealmetoo Pty Ltd. relined 14 concrete tanks of each 91,000 litres capacity and provided following services to reline water tanks:

- 1) Initial site inspection.
- 2) Cleaning and drying tanks.
- 3) Applying sealing product as agreed on site.
- 4) Allowing curing time and refilling the reservoirs.

The Sealmetoo company provided professional service, with works being completed before time and onsite project management was found to up Carrathool Shire Council's expectations.

If you need any clarification in this matter please contact me.

Yours sincerely

**PHIL MARSHALL**
