

TO WHOM IT MAY CONCERN

Over the past 12 years I have been involved with Sealmetoo Proprietary Limited and its employees. They have been engaged by Goldenfields Water County Council over this period of time to repair a total of 43 concrete reservoirs.

Council provides the essential water requirements for about 40,000 people spread over an area in excess of 22,000 square kilometres between the Lachlan & Murrumbidgee Rivers in south-western NSW.

The works included:

- Emptying and inspecting affected reservoirs;
- Cleaning reservoirs and applying sealing product to the affected areas, and on occasions applying sealing compound to the entire internals of the reservoir;
- Allowing curing time and refilling the reservoirs and further inspections.

The company and its employee's performed a professional service and could not be faulted.

If any further information is required please do not hesitate to contact me.
